

STIEBEL HOUSE ACB-2 (VN)

DOMESTIC USE

PRODUCT-NO.: 205261

The Stiebel House Activated Carbon Block (Stiebel House ACB-2) Pre-Filter is made of high quality coconut charcoal powder impregnated with silver ions to reduce unpleasant tastes, odours and harmful contaminants in fresh water by removing particles, chlorine, some bacteria and heavy metals. Silver ions added to the carbon reduce the growth of bacteria inside the filter cartridge. The Stiebel House ACB Pre-Filter is perfect for installation as both a point-of-entry and a point-of-use filter.

The main features

Improves water quality by removing contaminants

Improves water taste and odour by reducing chlorine, heavy metals and bacteria

Indirectly improves the water flow as less clogging occurs, therefore less maintenance is needed for sanitary fittings.

Antibacterial silver ions provide double protection of the water filter

Suitable for use with various water sources

Type	STIEBEL HOUSE ACB-2 (VN)
Part no.	205261

Technical data

Height	610 mm
Width	185 mm
Depth	210 mm
Weight	12 kg
Filter type	POE/POU prefilter
Installation type	Wall mounted appliance
Colour	black
Filtration stages	2 Stage
Filter stage 1	Activated carbon block with antibacterial silver media - 5 #m
Temperature range	4 - 35 °C
Nominal flow rate	16.7 l/min
Max. operating pressure	5 bar
Min. operating pressure	1 bar
Max. flow rate	15 l/min
Maximum water pressure	5 bar

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in.

The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
